EDUCATION

B. M. S. COLLEGE OF ENGINEERING | MASTER OF COMPUTER APPLICATIONS (MCA) COMPUTER SOFTWARE ENGINEERING Bangalore, Karnataka, India | 2012 - 2015

GPA: 8.0

BANGALORE INSTITUTE OF TECHNOLOGY | BACHELOR OF COMPUTER APPLICATIONS (BCA) COMPUTER SCIENCE Bangalore, Karnataka, India | 2009 - 2012

WORK EXPERIENCE

PROFESSIONAL FREELANCER | LEAD ENGINEER Bangalore, India | March 2025 – Present

- Directed the frontend architecture for 3 analytics-heavy interfaces, ensuring optimal user experiences for startups and scaling page load speeds by 25%.
- Spearheaded the implementation of automated CI/CD pipelines and rigorous E2E testing practices, accelerating deployment frequency by 40% and reducing critical production bugs by 15%.
- Provided technical mentoring to 5+ junior engineers and architectural guidance, accelerating early-stage project delivery timelines by 20%.

QUINTYPE TECHNOLOGIES | LEAD ENGINEER Bangalore, India | January 2021 – December 2024

- Architected scalable software solutions for a core publishing platform serving 10M+ monthly users, evaluating and adopting modern frameworks to improve system efficiency by 20%.
- Conceptualized and launched a market-ready product that increased client retention by 40%.
- Led the end-to-end execution of a mobile application in just 3 months, resulting in a 25% revenue increase and a significant boost in user retention.
- Optimized cloud infrastructure and application performance, successfully reducing operational costs by 30%.
- Managed cross-functional engineering deliveries across 3 teams, ensuring consensus among 10+ stakeholders while achieving a 95% sprint completion rate.
- Mentored a team of 6 junior to mid-level engineers, establishing robust code review standards that decreased code-review turnaround time by 30%.

QUINTYPE TECHNOLOGIES | SENIOR SOFTWARE ENGINEER Bangalore, India | January 2018 – January 2021

- Shipped high-performance web features focusing on rendering optimization, achieving a 40% improvement in Core Web Vitals scores.
- Resolved 50+ complex technical bottlenecks as a core contributor, enhancing platform stability and achieving 99.9% system uptime.

QUINTYPE TECHNOLOGIES | SENIOR FRONTEND DEVELOPER Bangalore, India | October 2017 – January 2018

- Constructed and maintained 40+ interactive UI components, collaborating closely with 3 design and product teams to accelerate UI iteration by 15%.

RARE MILE TECHNOLOGIES | SOFTWARE ENGINEER Bangalore, India | June 2015 – October 2017

- Spearheaded core product features for Inferlytics, handling UI design and multi-platform integration that increased daily active users by 10%.
- Built and maintained a dedicated merchandizer application used by 500+ field agents, improving inventory tracking efficiency by 25%.

ENTERPRISE ATLAS INC | SOFTWARE ENGINEERING INTERN Greater Boston Area | December 2014 – June 2015

- Executed scalar vector graphics (SVG) integration and assisted in application scaling initiatives, contributing to a 10% faster overall page load time.

TECHNICAL SKILLS

CORE LANGUAGES	JavaScript (ES6+), Node.js, Pine Script
FRONTEND FRAMEWORKS	React.js, React Native
FRONTEND ARCHITECTURE	Micro Frontends, Performance Tuning
DATABASES & APIS	MongoDB, API-Driven Architectures
CLOUD & SYSTEMS	System Architecture, Cloud Infrastructure Optimization
DEVOPS & CI/CD	Docker, CI/CD Pipelines
QUALITY ASSURANCE	End-to-End (E2E) Testing, Code Quality Enforcement
AI DEVELOPER TOOLS	Aider, Claude Code, LiteLLM
LOCAL LLM DEPLOYMENT	Ollama, MLX, Qwen
ENGINEERING LEADERSHIP	Technical Project Leadership, Cross-Functional Team Mentoring
AGILE MANAGEMENT	Stakeholder Management, Agile Methodologies

PROJECTS

AI-FIRST APPLICATION ARCHITECTURE | CLAUDE CODE, AIDER, LITELLM, OLLAMA, MLX

Designed the tech stack and architecture for a consumer-facing AI astrology platform, integrating 3 modern AI developer tools (Claude Code, Aider, LiteLLM) and exploring local models like Ollama and MLX.

MARKET DATA VISUALIZATION EXTENSION | JAVASCRIPT, GOOGLE APPS SCRIPT, CHROME EXTENSION API, DATA VISUALIZATION

Created a custom Chrome extension utilizing Google Apps Script to capture, sample, and visualize intraday Indian stock market index data (Nifty50, Bank Nifty) directly into Google Sheets for custom charting and strategy building.

PINE SCRIPT TRADING INDICATORS | PINE SCRIPT, TRADING ALGORITHMS, TRADINGVIEW

Engineered custom trading algorithms using Pine Script to analyze early market-open volatility for 3 distinct intraday trading strategies.
